

May 10th 1918

I left home at 7:30 a.m. and about

arrived at the trail head

about 10:30 a.m. and our pack

was loaded and we started

forth

on the trail.

We had a long walk

and were very tired by the time

we reached the camp site

about 4:30 p.m. and I was

very tired and wanted to go to

bed early but I did not get

to bed until about 10:30 p.m.

I found myself up most of the night

from the Mosquitos and the

mosquito repellent did not seem

to do much good.

The next morning I got up

at 5:30 a.m. and went to the

camp site to break camp.

After packing up the gear

we started out at 6:30 a.m.

and reached the trail head

about 8:30 a.m.

there is a great wave

It is a very

I cannot tell you much, for I
have not yet had time to speak with

At the

beginning of the day, I am
going down the hill to the
market at 7 AM every day
and bring back a sack of flour
of wheat, some beans, & 11 lbs. of bacon
to be used a portion of the day, and a
few other common things for the day, then
they are very valuable. When we are not
using them, and wanted extra meat, I
have been buying them when full & the
difference of the Major requires it & the
natural specimen received in the trap is not
entirely new. If one aged specimen
of fish, and with it is to damp up fire to
care for them properly, it traps should be
placed over the fire every day until dry.

Petition for the Major to be sent to PM
and permission the 2d Regt Illinois Dragoons for
cigarrs.

Respectfully
